

Wiggles & Waves

Technique
workshop

Learn how to “go with the flow” and find out how relaxing free-form cutting and topstitching can be! You will create a piece of fabric with dramatic curves and angles. Karen will show you how to use your beautiful “Wiggles & Waves” fabric in traditional and contemporary quilts, impressive borders, eye-catching wearables, background for appliqué and much, much more!

- Rotary cutting supplies
- Iron and ironing surface
- Large and small fabric scissors
- Sewing machine
- Sewing machine needles: although we are topstitching we do not need topstitch needles. I recommend good sharp piecing needles, such as Jeans 70/11, Quilting 75/11 or Sharps
- Long pins
- 6 fat quarters (18" x 22"/46cm x 56cm) of 6 values in the same color family OR 1 multi-color fabric with 5 coordinating fabrics
- Thread: Choose ONE (solid or variegated) to match all of the fabrics
- Marking pencil or chalk (optional)

Workshop based on Karen Eckmeier’s topstitching technique featured
in her book *Wiggles & Waves: Free-Form Curves*
